

WITH ITS INNOVATIVE AND VERSATILE DESIGN, THE BRONCO IS KICKING UP A LOT OF DUST IN THE CONSTRUCTION INDUSTRY.

The ultimate in safety, versatility and strength, the Bronco is the one and only all-terrain scaffold. This tough, three-legged scaffold is ideal for interior and exterior applications with uneven and difficult ground conditions. The extra-wide frame (up to 42 in. base spread) and tapered tripod provide unmatched stability and easy plank access. The Bronco weighs only 16 lbs and folds flat for easy storage and transport. No matter the project—siding, roofing, painting, windows or masonry work—the Bronco will keep you stable on any terrain.

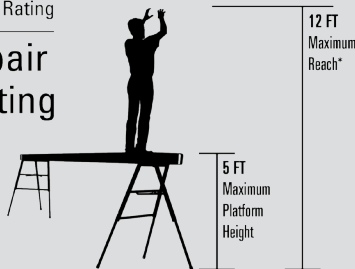

- Ideal for exterior applications where uneven and difficult ground conditions are common.
- Each pair of Broncos can be set up with a level platform height from 3 ft to 5 ft.*
- Work from 0 ft to 12 ft off the ground.
- Each pair easily supports up to a 24 in. wide platform and 600 lbs.
- The extra-wide frame (up to 42 in. base spread) and tapered tripod design provide stable platform access.
- A solid steel locking spring pin engages every 1.5 in. on each leg to safely accommodate even the most difficult terrains.
- The aircraft grade aluminum frame folds flat for easy storage.
- Each Bronco weighs only 16 lbs.
- Triangular, heavy gauge steel spreader locks the third leg into position with integrated carrying handle.
- Efficient, everyday tool for building trades professionals or safety-minded homeowners.

Load Rating

600 lbs per pair
Load Rating

*Based on 5'10" person with 14" reach on 6" plank

A. Tapered Tripod Design

Provides a stable base for a platform up to 24 in. with easy climbing access.

B. Heavy-Duty Spreader

Rigid, triangular design locks the legs into position and makes for an integrated carrying handle.

C. Adjustable Legs with TwistLok™

Independent telescopic legs adjust to any terrain to form a safe, level platform. Simply PUSH the solid steel locking pin, TWIST and PULL the legs, then LOCK into position.

F. Non-Skid Rubber Feet

Durable rubber feet for all-surface traction.

D. Extra-Wide Tripod Frame

Up to 42 in. base spread for stability, even in tight places.

E. Lightweight AND Heavy Duty

Weighs only 16 lbs each but can hold 600 lbs/pair.

The extremely versatile Bronco is the perfect scaffold for all your commercial and residential needs. With independently adjustable legs, the Bronco makes a large, stable workstation in any location.
