

PL65: GO WHERE OTHERS CAN'T.

Finally, there is a practical 3-in-1 lift that makes reaching difficult places easy in schools, churches, auditoriums, theaters, offices, and more.

PRACTICAL

- Stable at all heights
- 350 lb platform capacity
- Maximum working height 30 ft
- Complies with ANSI and OSHA safety standards

SMART DESIGN

- Powered by electric drill
- Masts stow and stack for quick extension
- Outriggers adjust to accommodate work surface

EXTREMELY PORTABLE

- One man can carry up stairs when disassembled
- Fits through standard doors
- Rolls across any terrain
- Zero-turn radius

Note: For indoor use only.

This image is shown with the fixed base.

» PL65 BASE OPTIONS

PL65 + FIXED BASE

- Working height up to 25 ft

PL65 + OUTRIGGER BASE

- Working height up to 25 ft

PL65 + STRADDLE BASE

- Working height up to 30 ft

SMALL FOOTPRINT

The stable fixed base has an incredibly small footprint. This makes it perfect for working in tight areas where typical lifts cannot be set up.

QUICK + EASY SETUP

The classic outrigger base with adjustable pads quickly creates a stable foundation, even on the most difficult surfaces.

WORK OVER ANY OBSTACLE

The straddle base is a versatile option for a wide variety of jobs. With this setup, working over obstacles like theater seats or church pews is no problem.

ACCESSORIES + FEATURES

HITCH HAULER

The convenient Hitch Hauler eliminates the need for a trailer—any vehicle with a 2 in. receiver hitch can transport the PowerLift. The PowerLift can be loaded and secured in a matter of seconds, and no ropes, chains, or straps are required. With the Hitch Hauler, you can keep your storage space available in the vehicle.

OVERSPEED BRAKE

The gearbox features an integrated overspeed brake to automatically stop the platform in the event of overspeed.

LIGHTWEIGHT

The lightest mid-range lift on the market! Components can easily be disassembled to make the PowerLift even more portable.
