

# TOUGH. VERSATILE. PORTABLE.

The ReechCraft Bronco is a rugged and versatile all-terrain scaffold, perfect for both commercial and residential needs. Because of its innovative design, the Bronco is kicking up a lot of dust in the construction industry.

## STABLE ON ANY TERRAIN

- Level platform height from 3 to 5 ft\* (0.91 to 1.52 m) for a portable workstation
- Legs adjust to accommodate uneven and difficult ground conditions
- Access up to 11 ft (3.35 m) working height

## INNOVATIVE DESIGN

- Made with aircraft-grade aluminum
- Extra-wide frame for easy platform access
- Each pair supports up to 600 lbs (272 kg)

## EXTREMELY PORTABLE

- Frame folds flat for easy storage
- Each Bronco weighs 16 lbs (7 kg)
- Features an integrated carrying handle

\*Based on a 5 in. thick platform.

### » DID YOU KNOW?

The extremely versatile Bronco is the perfect scaffold for all your commercial and residential needs. With independently adjustable legs, the Bronco makes a large, stable workstation in any location.

## » BRONCO SPECIFICATIONS

The ultimate in safety, versatility, and strength, the Bronco is the one and only all-terrain scaffold. This tough, three-legged scaffold is ideal for interior and exterior applications with uneven and difficult ground conditions. The extra-wide frame (up to 42-inch (1067 mm) base spread) and tapered tripod provide unmatched stability and easy platform access. The Bronco weighs only 16 pounds (7 kg) and folds flat for easy storage and transport. No matter the project—siding, roofing, painting, windows, or masonry work—the Bronco will keep you stable on any terrain.

### GENERAL SPECIFICATIONS

Load Capacity	300 lbs (136 kg)
Stowed Base Length	27 in. (686 mm)
Extended Base Length	37 in. (940 mm)
Stowed Base Width	37.5 in. (952 mm)
Extended Base Width	44 in. (1118 mm)
Folded Length	35 in. (889 mm)
Middle Support Width	28 in. (711 mm)
Bottom Support Width	32 in. (813 mm)
Stowed Height	31 in. (787 mm)
Extended Height	54 in. (1372 mm)
Adjustment Increments	1.5 in. (38 mm)
Weight	16 lbs (7 kg)

**Note:** Specifications are for one Bronco only and are subject to change without notice.

## BENEFITS + FEATURES

### TAPERED TRIPOD

The tapered tripod design provides a stable base for platform widths up to 24 inches (610 mm) with easy climbing access.

### EXTRA-WIDE FRAME

The extra-wide tripod frame creates a base spread of up to 42 inches (1066 mm) for the utmost in stability, even in tight places.

### HEAVY-DUTY SPREADER

The rigid, triangular design locks the legs into position and doubles as an integrated carrying handle.

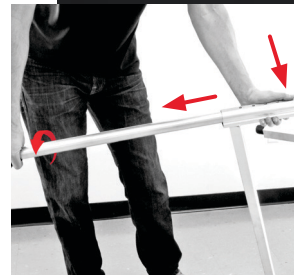

### NON-SKID FEET

Each Bronco features durable, non-skid rubber feet for all-surface traction.

### ADJUSTABLE LEGS WITH TWISTLOK™

The independent telescopic legs adjust to any terrain to form a safe, level platform. Simply PUSH the solid steel locking pin, TWIST and PULL the legs, then LOCK into position.
